Wave MOTION®

Weightless swinging,
floating like
in warm water

Wave MOTION®

Moving like weightless in 3-dimensional space. This is a unique and precious experience of WaveMOTION.

The harmonic combination of ...

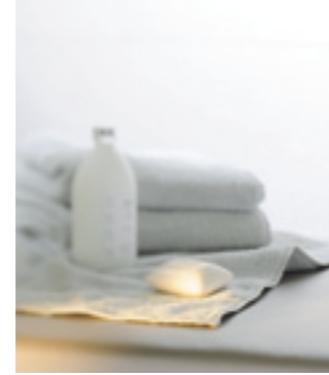

... treatment technique

- Regulating influence on muscle tonus and breathing pattern
- Reduction of sensitivity to pain
- Mood lifting
- Increase of body awareness
- Deep relaxation and sense of well being
- Mobilizing and better supply of joints
- 3-dimensional drainage leads to increased blood circulation and lymphatic flow

NEW

A REVOLUTIONARY TREATMENT TECHNIQUE

Clap Tzu

Wave MOTION®

What experts say:

“With the ABANO WaveMOTION, Matthias Kühn developed a trendsetting treatment table. With this table many techniques of the General Osteopathic Treatment (GOT) can be practiced extremely effortless for the therapist and with great effectiveness for the patient.”

Thorsten Liem, director of the Osteopathic School of Germany and author of osteopathic literature

“That's what I call big deal. The WaveMOTION treatment developed by my colleague Matthias Kühn, allows the therapist to oscillate single myofascial chains and to bring them into harmonic resonance. What was only possible during relaxing watertreatments is now practicable on the ABANO WaveMOTION treatment table.”

Dr. Biol.hum. Dipl. Psych. Robert Schleip; international Rolfing instructor and international fascial anatomy teacher

The treatment ...

There is hardly any other treatment that leads into deepest relaxation like water treatments. So, what could be more reasonable than bringing the main elements on dry land in order to reduce the immense effort needed for treatments in heated pools.

Clap Tzu has always been presenting solutions for special requirements in cooperation with the therapists. Out of that teamwork the WaveMOTION treatment was born, bringing the techniques of water-treatments onto a treatment table.

So we did it! The new treatment table ABANO WaveMOTION is equipped with a lying surface that is rotatably and oscillatingly mounted. That allows this unique table to gently swing and rotate 360° in space. As a matter of course the table can be fixed as well for any other treatments.

Matthias Kuehl, naturopath since 20 years and managing director of Clap Tzu, has developed a treatment method for this table in close cooperation with body workers of many hands on therapies. The WaveMOTION treatment is inspired by the General Osteopathic Treatment and the Harmonic Technique from Prof. Eyal Lederman, joint release techniques and Trager psychophysical integration.

The effect is very surprising: Within a very short time the soft and rhythmic movements induced by the therapist lead to a very deep relaxation. At the same time the WaveMOTION treatment has a mobilizing and vitalizing effect on the whole body.

View into the future

The application fields of the WaveMOTION treatment and the treatment table ABANO WaveMOTION are not fully explored, yet. Many other kinds of treatments are thinkable:

- Parkinson's disease
- hyperactive children
- spastic conditions
- postoperative care after joint operations
- Burnout Syndrom
- prevention of stress related disorders
- ... and many more

ABANO WaveMOTION ...

... for your practice, your spa or your wellness treatments. The unique treatment table allows your client to wave and swing on the table like floating in the water. Each impulse of your treatment affects a pleasant oscillation and rotation of the table.

Size	196/202 x 75/80 cm
Working height	69 – 94 cm
Weight	ca. 120 kg
