Nitinol Stone Retrieval Basket

Boston
Scientific

Escape™ Nitinol Stone Retrieval Basket

The Escape™ Nitinol Stone Retrieval Basket designed for use within the urinary tract, comprises a 1.9Fr shaft and a 4-wire tipless cage, narrowing to 2 wires, to offer the physician more control and independent manipulation of both the basket and laser fibre.

Releasability

Due to the 2-wire construction in the bottom of the cage, the stone, once captured, has more space to be released from the cage than with traditional 4-wire basket constructions.

11mm cage in standard 4-wire open shape

15mm cage in fully-open position

Side-by-side approach with 200 micron laser fibre

The shape and shaft size of the Escape™ basket allow the same irrigation flow as a 2.4Fr basket. The shape of the basket and the exclusively pre-packaged 2-port scope adaptor ensure a good alignment of basket and laser fibre.

Ordering Information

Order Number	Description	Size	Qty.
M0063902000	Escape Nitinol Stone Retrieval Basket	1.9Fr x 90cm	Each
M0063902010	Escape Nitinol Stone Retrieval Basket	1.9Fr x 120cm	Each
